— In Japan, the artist and
photographers have not succeeded to
make money. Also, they separate from
other industries. You collaborated with
fashion brands and made your items at
MoMA. How do you view the relationship
among photographers and designers
and artists?

TP: As for every relationship the more
is chaotic and ambiguous, and fun for
everyone, the more the outcome will be
interesting and satisfying!

— You have worked in this industry
for a long time. Do you feel the change
of photography and magazine
since you started your work?

TP: Less than five years doesn't seem a
long time compared to History! Everything
is continuously changing, even while we're
speaking, but only time and distance can
make you perceive the differences.

— Do you have any upcoming events?
We are producing the next issue!

I'm so low profile that shooting stars make wishes upon seeing me.

-- silence --
Words escaped from my mouth,
From the mind from behind,
from the heart from wherever they part.
To the ground to the furthest it lasts,
To dissipate in front of your composed hut.
Came to realise we missed the silence of the night.

今晚整豆腐no蛋

We got enough of the sun,
for a nightful of things to happen.
We got enough of the learnt,
for a whole lot of nothing to happen.
Feeling smashed, feeling crashed,
filling me naked for all the heartthrobs to happen.

May that ghost in you wake up black and white disposed,
and that toast you chew kissing a heart composed.

命運讓那粒米飯停留在妳嘴唇上，
也讓我故意在嘴唇上停留著一粒米飯善意地知會妳。
偶然地讓我展現取悅妳的溫柔。

Monday I had a déjà vu of last Monday's anticipated
exciting Friday that didn't happen.

Time wouldn't be enough.
Wouldn't calm on our behalf.

Your eyes deadlocked on my guise,
longing a mindcrime to be defined.

My ears flushed right to your fears,
longing to straighten all curves undefined.

Our souls eventually crossed,
our cells decided to talk.

Till the alarm soared,
our timer remains stalled.

Like a surreal art,
you scribbled me a mess,
like its very best.

I'm not patient enough to determine how impatient you are.

Now my left butt cramped from that gentleman stance.
My heart beats to an indefinite ten.
A total zero of your returning glance.
You nailed this poem to its pathetic end.

A failure to realise enough is enough is enough enough.

Didn't think I thought I did ever think of
thinking any thoughts of thinking.

First we give,
then we take,
and to give and take,
then give way to take,
and then, take to give way.

I don't know my kinder surprise
is a layer of happiness shelling
an elaborated disappointment,
or a facade of discontentment
scheming a hopeful surprise.

Exquisitely poetic.

whatever you've chosen will forgive you.

s: Hi! Nice to meet you, I'm Strange.

m: Hello, how strange are you?

s: I'm stranger than you.

m: Won't you get less strange as the conversation goes on?

m: Why don't we stop talking now?

s: No, if we stop talking, you won't be feeling the lost of strangeness in me.

m: Something tells me that I should ask you where are you.
m: So where am I as what you've felt like asking?

m: You are where you'll be telling me where you are but not anywhere I should know of prior to you telling me like now.

m: So should I tell you where am I for what you've perceived I would tell you so?

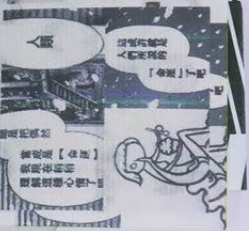

m: Yes and it's told.

m: No, I didn't tell you, you only thought you had learnt that but no.

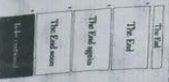

m: Yes you're right, you're not right in front of me, this is not what you've told me.

m: Yes I'm right in front of you, because I'm not gonna tell you the truth where I'm really are.

-- science --
I want it to last for eternity,
couldn't stand minutes of uncertainty.
I ran into the wall,
with invisible doors.
By science or by not,
I struggled to abort.
Like a pair of wings, like a beautiful thing,
nothing destines, nothing sinks.
A wild theory may unknot,
for another while it may assault.

It keeps us weak.
It keeps us strong.
It keeps us far from right but inches to wrong.
It left us sick.
It left us drawn.
It left us far from well but lovingly worn.

This is the face.
This is the neck.
This is where they touch.
This is where sensory erupts.
This is it, look how we fall into pieces.

妳只是普通人，
而我是自欺欺人。

Every time I think of you I hope you
wouldn't like me, wishing the opposite could happen.
The opposite did happen,
to what I'd been expecting to happen.

My heart beats vengefully fast.
Like dust lost in an endless horizon.
Your hands touch tenderly calm.
Like a dose from the motherly zone.

我沒睡，只是眼睛閉上吧了。
妳沒拍拖，只是手牽著我吧了。

為何抗拒失眠
我發夢很累，累了一整個夢，然後就睡了。

 contradiction drives. [redacted]
 And I know all these don't quite matter.
 You uptilted my lips with smileys sent afar.

 Your eyelids, feebly strong.
 Age didn't steal your delicate texture of your soul,
 neither did that fine gentleness go. [redacted]
